# Skills

## Web & App Development

## Visual Arts

## Music Production

# Professional experience

## Software dev of CV Omah IT

2024 –  
2025

- Designed and developed application architecture, ensuring scalability, performance, and security across all systems.
- Maintained, tested, and optimized applications, managing 5+ Nginx and Apache servers in cloud environments, performing routine maintenance and updates on a monthly basis.
- Collaborated with cross-functional teams, and led data analysis and migration of engineering data.

## Backend Engineer of Mitra Inti Bersama (MIB)

2023 –  
2024

- Developed core ERP modules (Sales, User, Gateway) to streamline business processes.
- Designed and implemented software architecture for high scalability and maintainability.
- Built authentication services and middleware to secure and manage access across all ERP clients.

# Professional experience

## Project-Based Internship Fullstack Developer of **BTPN Syariah**

**2024 –  
2024**

- Developed backend services using Java and Golang, focusing on API integration and optimization.
- Built dynamic front-end applications with Vue.js and JavaScript, enhancing user interaction and responsiveness.
- Managed SQL databases for data storage and retrieval, while using Git for efficient version control and team collaboration.

## Programmer Intern of **CV Omah IT**

**2023 –  
2024**

- Develop and maintain websites, handling planning, coding, testing, debugging, and updates to ensure reliability and security. Collaborate with teams to achieve project goals, leveraging the latest web technologies for efficient and relevant solutions.

# Professional experience

## QA Intern Evermos

2024 –  
2024

- Gained hands-on experience with Version Control Systems (vcs) and implemented best practices for code collaboration and version tracking.
- Performed Performance, Load, and Web Automation Testing using tools like K6 and Postman, ensuring system scalability and reliable functionality.

## Project-Based Internship Fullstack Developer Qwords

2023 –  
2023

- Full Stack Development: Engage in end-to-end development processes, utilizing CodeIgniter 4 for backend development and Vue.js/React for frontend development.
- Vue.js and React Development: Work on the frontend development using Vue.js and React to create dynamic and interactive user interfaces.
-

# Professional experience

## Assistant Lecture

**Atma Jaya Yogyakarta University**

### OOP Class

**2022 -  
2023**

- Collaborate with senior lecturers to develop the curriculum for the Object Oriented Programming course using the Java, ensuring that it covers the essential concepts, principles, and practical applications of object oriented programming.
- Assist the course instructor in preparing course materials, syllabi, assignments, and projects related to the Information System Web class. This involves reviewing and updating existing materials. Provide guidance and support to 120 students by conducting regular office hours.

### IS Class

**2023 -  
2023**

- Collaborate with senior lecturers to develop the curriculum for the Object Oriented Programming course using the Java, ensuring that it covers the essential concepts, principles, and practical applications of object oriented programming.
- Assist the course instructor in preparing course materials, syllabi, assignments, and projects related to the Information System Web class. This involves reviewing and updating existing materials. Provide guidance and support to 120 students by conducting regular office hours.

# Professional experience

## SELF EMPLOYED FREELANCER

### Creative Art

2018 -  
2021

- Wedding Photography & Videography
  - Documenting the unique love stories of couples, capturing candid moments, emotions, and details that make each wedding special.
- Event Coverage
  - Whether it's a corporate event, birthday celebration, or any special occasion, I provide comprehensive coverage that highlights the atmosphere and key moments.
- Music Video Production
  - Collaborating with artists, I create engaging music videos that reflect their vision and resonate with their audience.

### Software Developer

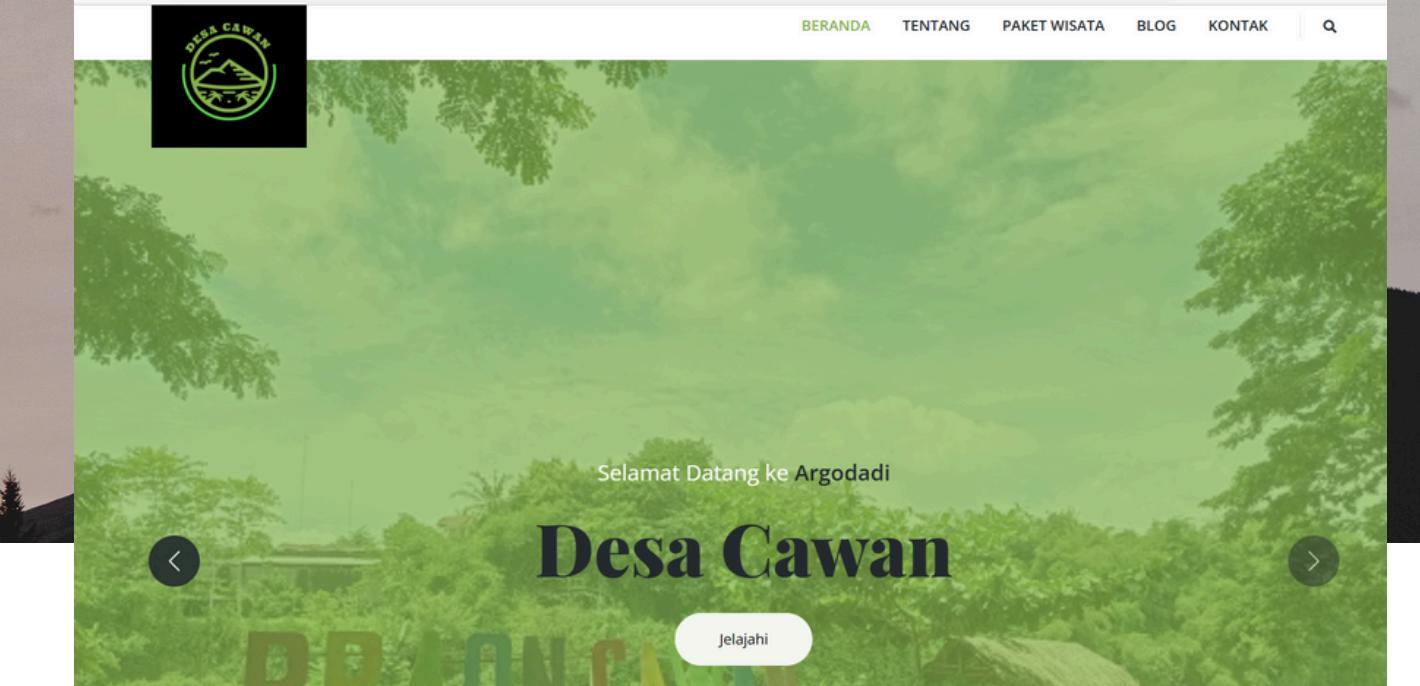

2022 -  
Present

- Custom Software Development
  - design and develop bespoke software applications that align with your business goals, whether it's a web application, mobile app, or desktop software.
- Web Development
  - build responsive and user-friendly websites using the latest technologies, ensuring optimal performance and accessibility across all devices.
- Maintenance and Support
  - provide ongoing maintenance and support services to ensure your software remains up-to-date, and **09** secure.

# Web Projects

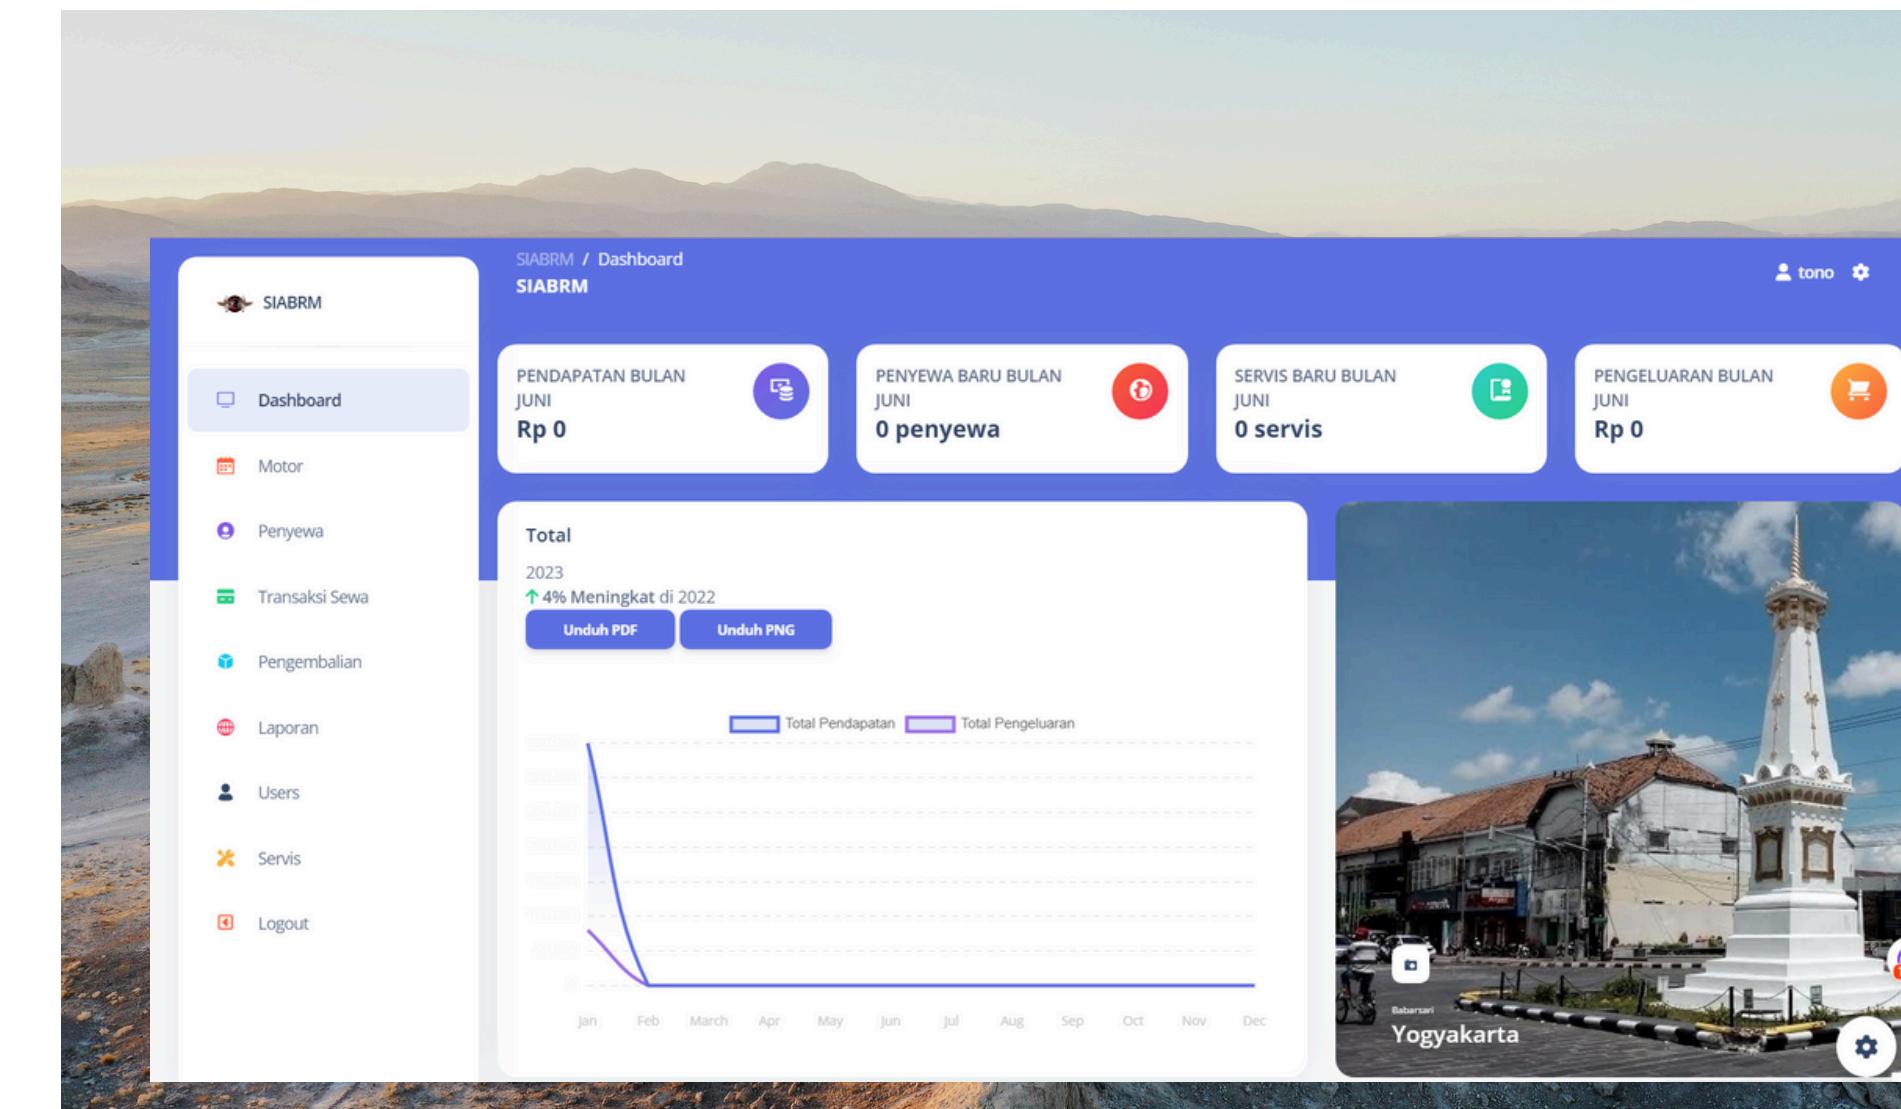

I work with a variety of people to produce beautiful websites and content for their projects.

Profile of Village

# SIABRM

SIABRM is a motorbike rental website owned by Al Barokah Motorbike Rental. A website-based application is useful for handling administration related to recording, calculating, reporting, and estimating profits and losses from a business."

SIABRM  
CLIENT – SRI AYU LESTARI

[HTTPS://SIABRM.000WEBHOSTAPP.COM/MOTOR](https://siabrm.000webhostapp.com/motor)

The screenshots illustrate the SIABRM application's interface:

- Dashboard:** Shows monthly earnings (Rp 0), new rentals (0), new services (0), and total expenses (Rp 0). It includes a chart showing a 4% increase in revenue compared to 2022, and a photo of a traditional white minaret.
- Motor Management:** Lists a fleet of BEAT CBS HONDA motorcycles, each with details like color (KUNING), license plate (AB 1234 AA), service status (DISERVIS), and price (Rp 50.000,00). Actions like Detail, Edit, and Delete are available for each item.
- Transaction Detail:** Displays a rental record for Gede Wahyu. The transaction ID is 308121. It shows the start date (28 January 2023, 2:41 PM), end date (31 January 2023, 2:41 PM), and return status (Belum Kembali). The breakdown of the bill includes a BEAT CW AB 8901 AA motorcycle for 3 days at Rp 50.000,00 per day, totaling Rp 150.000,00. The message "Terimakasih! Selamat berkendara, hati-hati di jalan. Jika ada keluhan silahkan hubungi kontak dibawah." is displayed at the bottom.

"The Cawan profile website is an online platform designed to promote and book tour packages and introduce the culture and uniqueness of an area or location called Cawan."

- HANU  
CLIENT

### Tentang Cawan

## Dukuh yang terletak di Desa Argodadi, Bantul Yogyakarta

### Praon Cawan

Praon Cawan, merupakan bahasa Jawa, yang dalam bahasa Indonesia kurang lebih berarti bermain perahu di daerah Cawan. Daerah ini menjadi objek wisata yang dibuka pada akhir tahun 2018 lalu. Lokasinya berada di Cawan Nitren, Padukuhan Cawan, Kalurahan Argodadi, Kapanewon Sedayu, Kabupaten Bantul, Yogyakarta.

### Mbudho Island

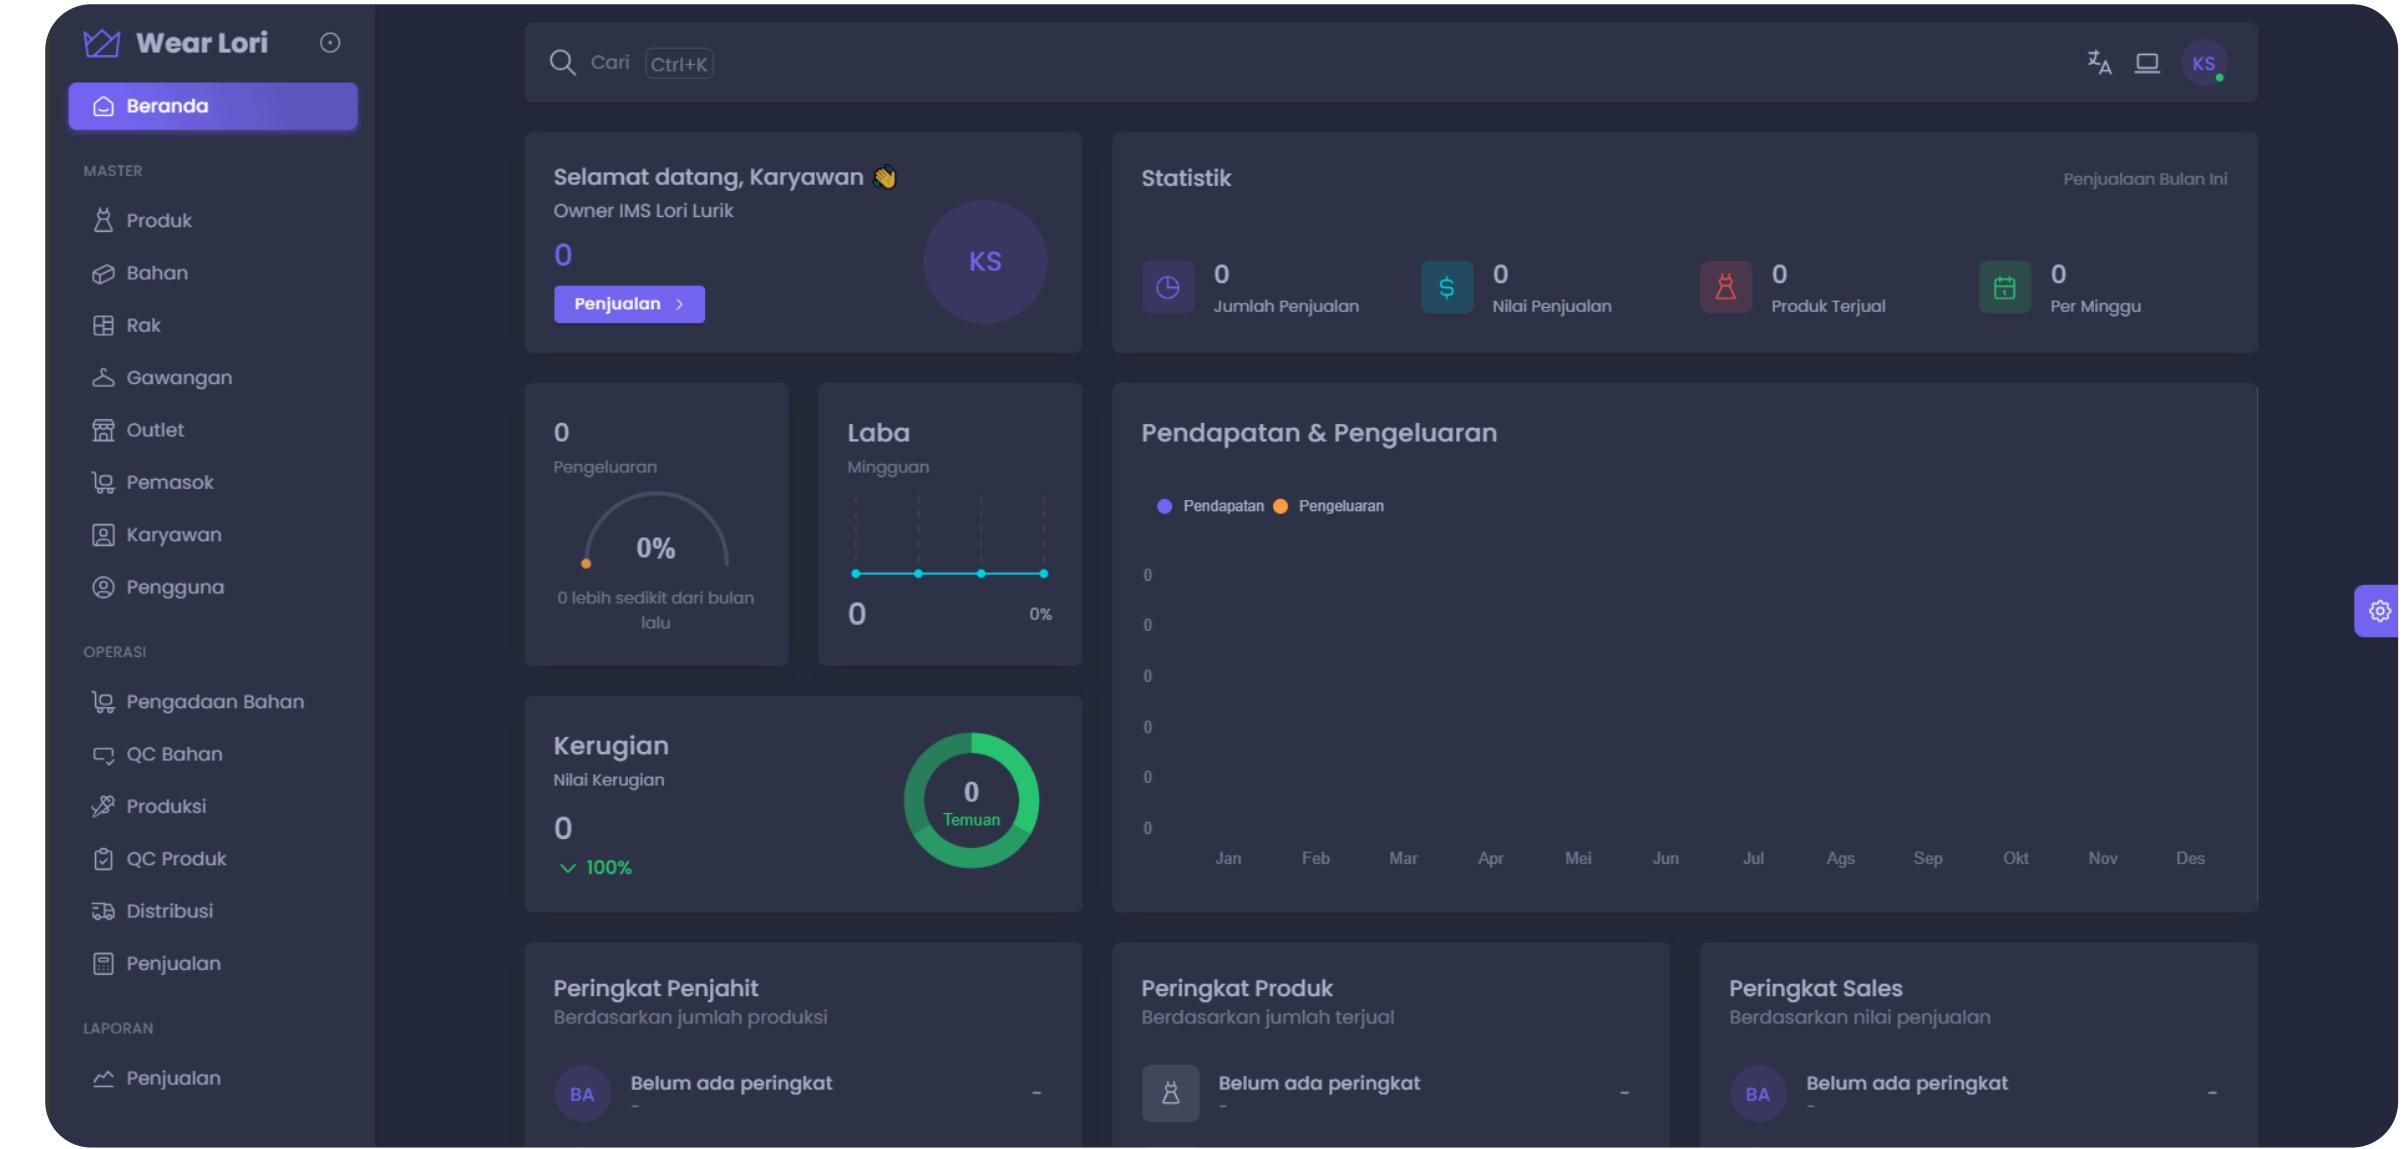

Mbudho Island adalah sebuah pulau yang ada di daerah Padukuhan Cawan dan memiliki potensi sebagai tempat wisata survival.

## "Uniq Fashion " Fashion Store Management Project

Facilitate the recap and recording of each data both Users and goods and transactions.

- PROJECT

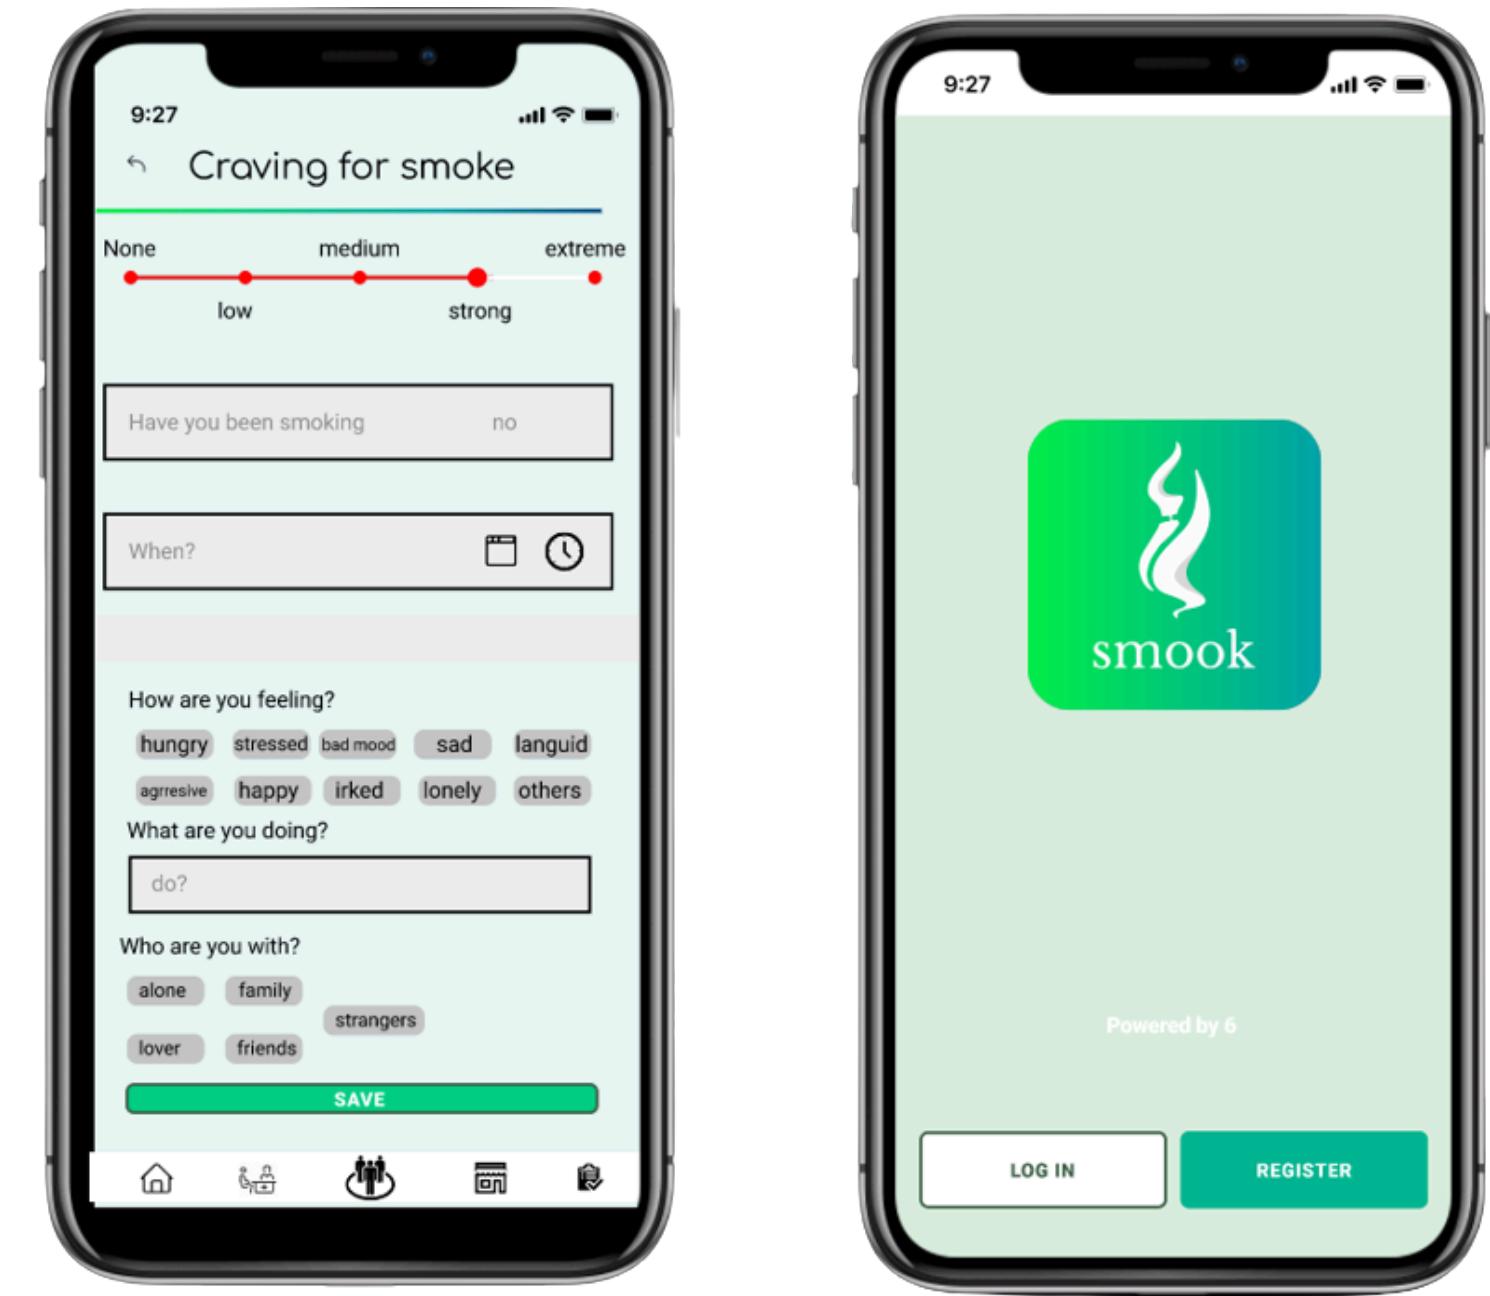

Two screenshots of the application. The left one shows the "MENU SHOPKEEPER" with the Uniqlo logo and "LifeWear" text, and buttons for "TRANSAKSI", "LAPORAN", "RIWAYAT TRANSAKSI", and "LOGOUT". The right one shows the "COLLECTIONS MAN" screen with fields for "Nama Jenis Koleksi", "Ukuran", "Materials", "Warna", "Harga", and a date picker. It also includes "ADD", "CLEAR", "EDIT", and "CARI" buttons. A table lists items with columns: Kode Barang, Warna, Ukuran, Overview, Materials, Stok, Harga, Jenis Koleksi, and Tanggal Masuk. One row is highlighted: Better soft b... L to XL, didesain oleh..., Cotton, 4, 10000009, Outer Street, 2022/07/28.

# UI Mobile Design Project

## "Smook "

Smok is an application developed to reduce a person's desire to smoke and even quit smoking.

- PROJECT

# UI Web E-commerce

## "MerchSekai "

An e-commerce application that has a market for Japanese product enthusiasts in Indonesia by providing a fresh look and easy to use

- PROJECT

The banner features a large red lantern icon with the Japanese characters 'せかい' (Seかい). Above the lantern, the text 'PRODUCTS E-JAPAN MERCHSEKAI' is displayed in a stylized font. To the right, a smartphone shows the MerchSekai mobile application interface, which includes a product listing screen and a detailed product view screen for sneakers. Below the banner, there are two screenshots of the MerchSekai website. The left screenshot shows a shopping cart page with items like a Joy Stick and Sneakers, along with payment options for Bank, E-Wallet, Credit Card, and COD. The right screenshot shows a detailed product page for 'Sneakers Convers HXH' priced at Rp 400.000, featuring an image of a green sneaker with a cartoon character design, customer reviews, and related products.
